### Annual Procurement Report

#### 1 Introduction

Where a public organisation is required to prepare a procurement strategy or review an existing one, for example, it has an estimated total value of regulated procurement spend of £5 million or more (excluding VAT) in a financial year, it must also publish an annual procurement report. The Procurement Reform (Scotland) Act 2014 sets out what, as a minimum, each annual procurement report must contain.

The annual procurement report should be relevant and proportionate, providing transparency of its purchasing activities. The statutory guidance states that an annual procurement report must address all of the matters contained in an organisations procurement strategy.

The annual procurement report must be published as soon as reasonably practicable after the end of the financial year. The first annual procurement report to be published will be based on the 2017-2018 financial year (for Scotland Excel this is 1 April 2017 – 31 March 2018) and should also include the period from 1 January 2017 to the start of the financial year.

#### 2 Annual Report on Procurement in Scotland

After the end of each financial year, Scottish Ministers must prepare a report based on the information contained in the published annual reports from public organisations. This is called the Annual Report on Procurement in Scotland.

The Annual Report on Procurement in Scotland by Scottish Ministers will be based on information contained within individual annual procurement reports and such other information that is considered appropriate.

### **3 Legislative Requirements**

The Procurement Reform (Scotland) Act 2014 lists the minimum requirements that the annual procurement report must contain, as follows:

- (a) a summary of the regulated procurements that have been completed during the year covered by the report,
- (b) a review of whether those procurements complied with the authority's procurement strategy,
- (c) to the extent that any regulated procurements did not comply, a statement of how the authority intends to ensure that future regulated procurements do comply,
- (d) a summary of any community benefit requirements imposed as part of a regulated procurement that were fulfilled during the year covered by the report,
- (e) a summary of any steps taken to facilitate the involvement of supported businesses in regulated procurements during the year covered by the report,
- (f) a summary of the regulated procurements the authority expects to commence in the next two financial years,
- (g) such other information as the Scottish Ministers may by order specify

# Scotland Excel Annual Procurement Report 2018

## Introduction

Scotland Excel is the Centre of Procurement Expertise for the local government sector. Established in 2008, we are a leading non-profit shared service funded by Scotland's 32 local authorities.

Our £1 billion contract portfolio supports the delivery of social care, construction, roads, transport, environment, corporate, education and ICT services, and achieves annual savings of c. £15m. A strategic approach ensures contracts are designed to encourage innovation, facilitate policy, support local economies and generate social value for communities.

Scotland Excel strictly adhere to their duties as laid down by the Procurement Reform (Scotland) Act 2014 ("the Act"). Section 18 of the Act requires any public organisation who is required to publish a procurement strategy to prepare an annual procurement report.

This annual procurement report will review the Procurement Strategy published by Scotland Excel in December 2016 and evaluate the organisations procurement activity. The report further supports Scotland Excel's commitment to transparency within its procurement activity and documents our performance against our objectives and strategic targets.

Scotland Excel's current Procurement Strategy, sets out the strategic direction for its procurement activity and details the context in which Scotland Excel will work to ensure that its procurement delivers value for money and directly contributes to the achievement of its aims and objectives. Together with its Sustainable Procurement Strategy and respective Category Strategies it reflects the Scottish Model of Procurement. It also demonstrates how Scotland Excel ensures it has considered the wider social, economic and environmental aims of procurement in a consistent manner as required by the sustainable procurement duty under the Act. Scotland Excel's Procurement Strategy is also clear on how it will contribute to meeting the general duties in the Act.

Scotland Excel has published its Annual Procurement Report on its website <http://www.scotland-excel.org.uk/>.

## Section 1 Summary of Regulated Procurements Completed

Section 18(2) of the Procurement Reform (Scotland) Act 2014 requires organisations to include: "a summary of the regulated procurements that have been completed during the year covered by the report".

A regulated procurement is completed when the award notice is published or where the procurement process otherwise comes to an end. This includes contracts and framework agreements.

The principle of transparency requires an organisation to approach its public procurements in an open and inclusive manner. Scotland Excel has at present fifty-six live framework agreements. These frameworks are aligned to Councils' requirements and are established on their behalf. Appendix 1 provides a high-level summary of the regulated procurements Scotland Excel has completed between 1<sup>st</sup> Jan 2017 and 31<sup>st</sup> March 2018. As required Appendix 1 includes:

- The date of award
- The name of the supplier
- The subject matter
- Estimated value of the framework
- The start date
- The end date

## **Section 2 Review of Regulated Procurement Compliance**

Section 17 of the Act requires all regulated procurements to be carried out in line with the organisations procurement strategy. Section 18(2) states that an annual procurement report must include “a review of whether those procurements complied with the authority’s procurement strategy” and “the extent to which any regulated procurements did not comply, and a statement detailing how the organisation will ensure that future regulated procurements do comply”.

Prior to the commencement of any procurement exercise a commodity strategy is developed. Commodity strategies are reviewed as part of Scotland Excel’s established governance procedures. This involves review at contract steering groups, by various members of management to ensure commodity strategies reflect and adhere to the values and principles set out in the overall Procurement Strategy. Throughout the procurement journey individual commodity exercises are reviewed, evaluated and monitored at contract steering groups before proceeding to the next stage in the procurement process. Commodity strategies reflect the Scotland Excel Procurement Strategy and ensure that procurement exercises follow a journey that embeds our organisations principles, values and objectives.

The Contract Steering Group is responsible for governance of each appointed milestone of the procurement process from contract initiation through to contract termination /expiration in line with the Governance Gateways (outlined in bold) below:

These Governance Gateways are designed to accommodate the EU Open and Restricted Procedures and regulated Procurements as defined by the Act.

This methodology represents and ultimately ensures that all regulated procurements align with the Procurement Strategy. Furthermore, our approach to strategic procurement in this way maximises the added value potential in each and every procurement exercise.

Scotland Excel have recently reviewed the commodity strategy template to incorporate recent legislative updates with a particular focus on data protection by design in light of the recent introduction of the General Data Protection Regulation (“GDPR”) and the

new Data protection Act 2018. We continually strive to strengthen and develop our internal governance structures and recognise that the strategy development stage is crucial in the creation of our framework agreements. It is at this stage that we conduct extensive market consultation and stakeholder engagement to promote involvement and undertake comprehensive market analysis.

Key success factors are established in consultation with our members. Financial savings targets for each procurement exercise are projected at the strategy stage and suppliers are obliged to provide detailed spend information. Through effective contract management quantitative and qualitative aspects are monitored and reviewed. Performance against our strategy and objectives for 2017/18 is given at Appendix 2

### **Section 3 – Community Benefits Summary**

Section 18(2) of the Act states that it is mandatory for an annual procurement report to include “a summary of any community benefit requirements imposed as part of a regulated procurement that were fulfilled during the year covered by the report”.

Community benefit clauses provide a means of achieving sustainability in public contracts. They include targeted recruitment and training, small business and social enterprise development and community engagement. The requirement to include Community Benefits in the delivery of goods and services is an integral element within Scotland Excel frameworks.

Scotland Excel incorporate community benefits in its procurement activities to promote and encourage sustainability. It is widely recognised that in doing so we contribute to the delivery of social and environmental benefits. Tenderers are required to make a community benefits submission in respect of the spend they will receive through access to the relevant framework and this is monitored throughout the duration of the framework agreement. The system used to capture and record Community Benefits has been reviewed and fully addresses the requirements of the statutory guidance made under the Procurement Reform (Scotland) Act 2014, and supports the ongoing drive to deliver sustainable procurement.

Community benefits information is collected from suppliers on a six-monthly basis. Those who receive spend, in excess, of £10,000 are required to produce a detailed breakdown of the community benefits they provide. The information for the last financial year has been collated and is given in the table below:

Table 1 – Community Benefits 2017/18

<b>Classification of Community Benefit</b>	<b>2017/18</b>
No. of Apprentices	52
No. of New Jobs	146
No. of Work Placements	29
Hours of Volunteering	1637

Hours of Work Experience	2541
Value of other Community Benefits	£311,754

This return is vital for the reporting of social and environmental benefits provided as a result of the procurement activity conducted by Scotland Excel. Our methodology provides a platform for suppliers to demonstrate the commitment they make at the tender stage and to realise their full economic potential. ‘Other Community Benefits’ encompass a range of benefits including donations and sponsorships of various clubs and community organisations. From our most recent community benefit return we have noted progressive results. A number of suppliers are now creating designated ‘community benefit funds’ based on the spend they receive for contracting authorities to invest appropriately in community related projects. This detailed approach by suppliers evidences fulfilment of community benefits and a dedicated approach to providing social and environmental benefits.

Additionally, Community Benefits are reviewed with suppliers at contract management review meetings and reported to local authority procurement managers at their business review meetings.

#### **Section 4 – Supported Businesses Summary**

Section 18(2) of the Act requires organisations to summarise steps taken to facilitate the involvement of supported businesses in regulated procurement. Scotland Excel recognises that supported businesses provide a crucial contribution to the Scottish economy.

Supported businesses are defined as: *“an economic operator whose main aim is the social and professional integration of disabled or disadvantaged persons where at least 30% of the employees are disabled or disadvantaged”*. Contracts may be reserved for those businesses meeting these criteria

At Scotland Excel the involvement of supported businesses in Regulated Procurements is considered at the strategy development stage. As commodity strategies are mandatory for all regulated procurements undertaken by Scotland Excel, the involvement of supported businesses is therefore considered in all regulated procurements.

Although no Regulated contracts were reserved for supported businesses in 2017/18 in line with our sustainable procurement duty and procurement strategy all procurement exercises undertake a sustainability assessment. Due diligence in this way means evaluations are conducted to determine ways in which sustainability, including the use of supported businesses can be maximised. By way of an example Scotland Excel have received wide spread recognition for their Domestic Furnishings and Furniture framework which was awarded for the inclusion of supported businesses. This framework was testament to innovative procurement that facilitated the inclusion of supported businesses. In a similar way the ability to include supported

businesses has been identified in a number of other frameworks. Scotland Excel will aim to take advantage of these opportunities and continue in our engagements to increase business placed with supported businesses. Supported business related initiatives are monitored as a Key Performance Indicator (KPI) during ongoing contract management.

In order to further support and promote supported businesses Scotland Excel hosted an event to bring together representatives from supported businesses and council procurement and economic development teams to identify opportunities for joint working.

Delegates heard from several speakers including Paul Wheelhouse, Minister for Business, Innovation and Energy, and took the opportunity to network and exchange ideas.

Scotland Excel took the opportunity to again emphasise that supported businesses are vital to the Scottish economy and that they provide essential job opportunities for disabled and disadvantaged people within our communities which enable them to become more independent, while also delivering a range of excellent goods and services.

Furthermore, we highlighted how we are always looking for appropriate ways to include supported businesses in our frameworks – as demonstrated by the supply chain opportunities incorporated into our award-winning Domestic Furniture and Furnishings framework.

## **Section 5 – Future Regulated Procurements Summary**

Section 18(2) of the Act states it is mandatory that an annual procurement report must include “a summary of the regulated procurements the authority expects to commence in the next two financial years.”

Scotland Excel uphold the values of transparency and proportionality to encourage competition and to achieve better value for money. Scotland Excel will continue to engage and communicate appropriately, to give suppliers advance notice of future opportunities.

Scotland Excel plans to commence around thirty regulated procurements over the next two financial years however these are subject to change. Details of these anticipated contract requirements are shown in Appendix 3

Scotland Excel is presently reviewing dynamic purchasing systems to determine if these are appropriate in any future regulated procurement exercises.

## **Section 6 – Other Content for consideration**

At Scotland Excel, we are leaders of change. Over the past ten years, we have helped to raise the profile of procurement in local authorities by championing its potential to

shape markets, support policy priorities and, ultimately, ensure the sustainable delivery of the services that every community needs.

Our services are designed to help councils meet the twin challenges of reducing budgets at a time of growing demand. Collaborative procurement increases efficiency and ensures money is saved to protect front line services. By working together through Scotland Excel, councils can realise a host of social, economic and environmental benefits from their spend.

Scotland Excel also offers an award-winning learning and development programme, and provides assessment, consultancy and improvement services to help councils transform their procurement capability. We represent the sector at a national level on all matters relating to public procurement, and provide procurement support for a range of national sector initiatives including the Scottish Government's Affordable Housing Supply Programme (AHSP).

Our vision is: To provide innovative, transformative solutions for local and national public services across Scotland.

Our Mission is: To make the most of our strategic procurement expertise and our experience of developing collaborative solutions which support better outcomes for Scotland's people and communities through early intervention and the delivery of sustainable public services

The following principles, which were developed by staff from across the organisation, guide our approach to our work.

- Professional - We establish goals and objectives to achieve excellence and demonstrate leadership in everything we do.
- Courageous - We listen with an open mind and respond honestly and constructively.
- Respectful - We achieve the best possible outcomes through our determination, resilience and innovation.
- Integrity - We are transparent and fair in all our actions securing trust and building confidence.

At Scotland Excel, we are committed to demonstrating innovation and continuous improvement in everything we do. We are delighted to have won a number of awards for our work. We also hold a number of accreditations which reflect our commitment to best practice in procurement, organisational development and workforce matters.

CIPS Corporate Certification Standard - This award signifies that we have all the procurement governance mechanisms in place for effective supply assurance and compliance.

Investors in People (IIP) - IIP is a UK government initiative, providing a best practice people management standard, and is regarded as an indication that Scotland Excel is a great employer, an outperforming place to work and has a clear commitment to sustainability.

Chartered Management Institute Approved Centre- Scotland Excel is an approved centre for the delivery and assessment of CMI leadership and management qualifications.

Living Wage - Scotland Excel is proud to be a Living Wage employer. Living wage is a voluntary hourly rate of £8.75 an hour set independently and updated annually, calculated according to the basic cost of living in the UK.

## Appendix 3

Performance against our strategy, operating plan and objectives for  
2017/18

## Review of Regulated Procurement - Performance against our strategy, operating plan and objectives for 2017/18

### 1. Purpose of the report

This report presents an update on our performance against the 2017/18 operating plan.

### 2. Reporting methodology

Progress reports are produced quarterly to track Scotland Excel's performance against operating plan activities. Reports are produced at the end of each quarter and submitted to Executive Sub-Committee meetings. Half yearly and annual reports are also submitted to Joint Committee meetings.

The reports summarise the progress made against operating plan activities and uses a 'traffic light' symbol to provide a quick guide to the status of each activity:

	Project or activity is currently stalled or significantly behind schedule
	Project or activity is progressing at a slower pace than anticipated and/or results have been weaker than expected
	Project or activity has been completed and/or is progressing in line with expected/agreed timelines and targets

### 3. Progress to date

The following report provides an update on activities undertaken during financial year to 31 March 2017. The majority of activities have progressed in line with plans and are indicated by a green symbol. A small number of project-based activities have not been fully delivered in line with plans and are indicated as amber or red. The report also tracks performance against ten key performance indicators (KPIs).

# Operating Plan

2017 – 2018

Year End Report

## Goa1 1: Supporting the delivery of better and more effective public services

Strategic objectives	
1.1	Deliver a range of collaborative procurement and supplier development services which support customers at a strategic and operational level
1.2	Deliver a range of shared services which support customers in the development of their professional, organisational and commercial capability
1.3	Deliver a range of new shared services which support the effectiveness and efficiency of customer operations

Activity	Year 3 Priorities	RAG status	Progress summary
(a) Develop and implement a contract plan aligned to the strategic priorities of member authorities	<ul style="list-style-type: none"> <li>• Resource and implement contract delivery plans including 11 'small value' contracts</li> <li>• Develop and implement a procurement strategy for older people's care services</li> <li>• Deliver an opportunity analysis for adult supported living and care at home commissioning</li> <li>• Provide ICT procurement services for the local government Digital Office</li> <li>• Support SEEMiS with the procurement of a national education MI system</li> <li>• Monitor CCS partnership and develop proposals for future procurement partnerships</li> <li>• Review and update procurement strategies for all key category areas</li> </ul>		<ul style="list-style-type: none"> <li>• Eight 'small value' contracts were delivered during 2017-18, with a further contract due to be awarded in April. Of the two contracts not delivered, one was found to be unsuitable for collaboration while the other did not attract sufficient market interest.</li> <li>• A proposal for a new Scottish Care Home Framework has been developed. A sourcing strategy will be co-produced with providers, commissioners and Health &amp; Social Care Partnerships (HSCPs) in 2018-19.</li> <li>• Following market analysis and stakeholder engagement, it has been agreed that a single 'care and support' framework will be developed for adult supported living and care at home services. Twenty-one councils have indicated an interest in using the framework, and a procurement strategy will be developed by June 2018.</li> <li>• Scotland Excel is continuing to provide procurement support for the Digital Office. Eighty suppliers participated in a webinar in January 2018, and ongoing engagement with local authorities is taking place to identify collaborative opportunities. A new care management solution is being explored with seven councils and NHS Scotland.</li> <li>• The initial procurement project for SEEMiS has been completed successfully and this partnership will continue into 2018-19.</li> <li>• Councils were migrated to the Crown Commercial Services (CCS) light vehicles framework in June 2017 to capitalise on economies of scale and release procurement resources. Feedback from councils has been positive, and a full survey on framework usage is planned for June 2018.</li> <li>• Updated category strategies have been published on Scotland Excel's website.</li> </ul>

<p>(b) Develop and implement a strategy and plan for the delivery of contract and supplier management</p>	<ul style="list-style-type: none"> <li>• Complete the roll out of the new CSM programme across the contract portfolio</li> </ul>		<ul style="list-style-type: none"> <li>• The Contract &amp; Supplier Management (CSM) programme launched in 2017 did not support the required levels of participation or feedback. Three alternative options were evaluated, and a new survey tool is now being trialled before being rolled out across the organisation in 2018-19.</li> </ul>
<p>(c) Develop and implement a strategy and plan for improving supplier performance</p>	<ul style="list-style-type: none"> <li>• Deliver the 2018 Supplier Excellence Awards</li> <li>• Incorporate supplier development into the 2018 Scotland Excel Conference</li> <li>• Pilot a KSM programme and extend to other key suppliers based on results</li> </ul>		<ul style="list-style-type: none"> <li>• The Supplier Excellence Awards ceremony took place on 20 February 2018, and was attended by over 350 guests. Feedback on the awards programme has been very positive, and it generated significant media coverage for Scotland Excel and participating suppliers.</li> <li>• Fifty-two supplier delegates attended the second day of the Scotland Excel Conference which focused on building positive relationships.</li> <li>• Plans for a Key Supplier Management (KSM) programme are on hold pending the roll out of the new CSM programme. Relationships with key suppliers continue to be managed by procurement teams in the interim.</li> </ul>
<p>(d) Manage the rollout of a new national procurement capability assessment to the local government sector</p>	<ul style="list-style-type: none"> <li>• Complete the first cycle of PCIP assessments with participating councils</li> <li>• Consult on plans for a second cycle of PCIP assessments</li> </ul>		<ul style="list-style-type: none"> <li>• Procurement &amp; Commercial Improvement Programme (PCIP) assessments have been completed with all 32 Scottish local authorities.</li> <li>• A second cycle of PCIP assessments is being planned for 2018-19.</li> </ul>
<p>(e) Develop and implement a programme to lead and support the development of procurement and commercial capability</p>	<ul style="list-style-type: none"> <li>• Develop and deliver a rolling programme of procurement capability and change services for local authorities</li> <li>• Deliver an Annual Conference to support development in Feb 2018</li> <li>• Deliver Scottish Government funded procurement improvement programme for housing associations</li> </ul>		<ul style="list-style-type: none"> <li>• Thirty-five change projects were delivered for councils during 2017-18. A national programme to address the four priority areas identified from PCIP assessments was launched in February 2018 and will continue throughout 2018-19. Aberdeen City Council has commissioned Scotland Excel to undertake a six-month consultancy project, and a two-year transformation programme for Fife Council is expected to be approved in April 2018.</li> <li>• The Scotland Excel Annual Conference was held at the Radisson Blu in Glasgow on 20-21 February 2018, and was attended by 110 delegates.</li> <li>• Thirteen PCIP assessments were completed with housing associations during 2017-18 as part of the Scottish Government programme. Twenty-nine assessments have been scheduled to take place by September 2018, with a further eleven to be completed by March 2019.</li> </ul>

<p>(f) Develop and implement a 'procurement academy' to support professional capability and encourage new entrants to public procurement</p>	<ul style="list-style-type: none"> <li>• Roll out L &amp; D programmes in line with the strategy</li> <li>• Develop plans for delivering a L &amp; D programme for social care commissioning</li> <li>• Develop a proposal to support the Scottish Government's PPOT initiative</li> </ul>		<ul style="list-style-type: none"> <li>• Three Chartered Management Institute (CMI) accredited Leadership &amp; Management courses ran in Inverclyde, Perth and Stirling during 2017-18, with a fourth scheduled to begin in Fife in April 2018. A Chartered Institute of Procurement &amp; Supply (CIPS) accredited course was launched in January 2018. Ten practitioner workshops and two masterclasses also took place during the year.</li> <li>• Scotland Excel has been in discussion with partners including the Scottish Government, Healthcare Improvement Scotland and Social Work Scotland to scope learning and development requirements for social care commissioning. Options for incorporating these into the Scotland Excel Academy will be completed in 2018-19.</li> <li>• Scotland Excel has continued to support the Procurement People of Tomorrow (PPOT) initiative through co-chairing the Scottish Government's Professional Practice Strategic Forum. Scotland Excel also worked with Skills Development Scotland to develop a Graduate Level Apprenticeship in business management.</li> </ul>
<p>(g) Develop and implement a shared service offering for councils which meets their requirements in a changing public sector landscape</p>	<ul style="list-style-type: none"> <li>• Develop a shared services strategy to inform future service development proposals</li> </ul>		<ul style="list-style-type: none"> <li>• Scotland Excel explored a number of new opportunities during 2017-18. Funding has been secured from eleven local authorities to develop a national house building framework, and discussions are ongoing with Transport Scotland on proposals to support the development of an electric vehicles charging infrastructure. Chargeable consultancy projects for local authorities have also been commissioned or are in the pipeline.</li> </ul>

## Goa1 2: Being sustainable in everything we do

Strategic objectives	
2.1	Work with stakeholders to develop procurement strategies which support the delivery of national and local policy priorities
2.2	Deliver positive and measurable social, economic and environmental impact to local communities
2.3	Lead and support customers in the development and implementation of best practice in sustainable procurement

Activity	Year 3 Priorities	RAG status	Progress summary
(a) Develop and implement strategies for responding to procurement and/or public sector legislation	<ul style="list-style-type: none"> <li>• Develop and implement plans to comply with GDPR regulations</li> <li>• Monitor risks/opportunities arising from the Community Empowerment Act</li> <li>• Engage with IJB Chief Officers to identify HSCI procurement opportunities</li> <li>• Develop proposals to support councils with early learning and childcare procurement</li> <li>• Update waste category strategy to align with legislative landscape</li> </ul>		<ul style="list-style-type: none"> <li>• Scotland Excel is on track with plans to ensure compliance with General Data Protection Regulation (GDPR) which take effect from 25 May 2018. GDPR training sessions have been delivered for Scotland Excel staff and customers as part of these plans.</li> <li>• No major risks or opportunities identified for the sector in connection with the Community Empowerment Act during 2017-18.</li> <li>• Scotland Excel has continued to support the integration of health and social care throughout 2017-18. Good working relationships have been established with Chief Officers and Chief Finance Officers within Health &amp; Social Care Partnerships (HSCPs) and their input has informed new developments within the social care portfolio.</li> <li>• Scotland Excel developed proposals to support the expansion of early learning and childcare provision but has been unable to secure funding to progress further. Efforts to secure funding will continue in 2018-19.</li> <li>• The waste category strategy has been updated and published on the Scotland Excel website.</li> </ul>
(b) Ensure Scotland Excel's collaborative frameworks support local and national government policy priorities	<ul style="list-style-type: none"> <li>• Continue to support national policy outcomes in social care frameworks</li> <li>• Continue to support the roll out of CRDG recommendations</li> </ul>		<ul style="list-style-type: none"> <li>• National policy outcomes for looked after children were incorporated into the renewal of the children's residential care framework in March 2018. National health and wellbeing outcomes were considered as part of proposals for older people's care homes and adult care services which were developed during 2017-18.</li> <li>• Scotland Excel participated in Construction Review Delivery Group (CRDG) meetings throughout 2017-18. The work of the delivery group has now been completed and the Scottish Government has set up an internal team for the ongoing management of construction policy.</li> </ul>

<p>(c) Ensure Scotland Excel's collaborative frameworks support positive local economic outcomes</p>	<ul style="list-style-type: none"> <li>• Support SDP public procurement training for Scottish SMEs</li> <li>• Review options for including community benefits measures as part of the new CSM programme</li> <li>• Develop a strategy for supported businesses, including delivery of a business development event</li> </ul>		<ul style="list-style-type: none"> <li>• Scotland Excel delivered ten Supplier Development Programme (SDP) training sessions and attended four national and local 'Meet the Buyer' events during 2017-18.</li> <li>• Plans for including community benefit measures as part of Scotland Excel's CSM programme are on hold pending the roll out of a new programme in 2018-19.</li> <li>• Scotland Excel's supported business event took place in Glasgow on 08 February 2018, and was attended by 60 delegates from supported businesses and council economic development and procurement teams. Paul Wheelhouse MSP, Minister for Business, Innovation and Energy and Chair of the Scottish Government's Supported Business Advisory Group, spoke at the event. Further actions to create opportunities for supported businesses will be considered in 2018-19.</li> </ul>
<p>(d) Ensure Scotland Excel's collaborative frameworks support local government environmental duties and policies</p>	<ul style="list-style-type: none"> <li>• Continue work with partners to align the waste category strategy with national programmes</li> <li>• Include measure for environmental impact within the new CSM programme</li> </ul>		<ul style="list-style-type: none"> <li>• Scotland Excel has been working with Zero Waste Scotland and councils on new contract arrangements for recyclable and residual waste which will be implemented in 2018-19.
